Attending training on a virtual platform.

- Please join using the link sent via email by the course administrator.
- You may have been sent pre-course materials, please read these documents to prepare for the session.
- Make sure that you join us using a functioning electronic device such as laptop or PC and try to familiarise yourself with the training platform prior to the event. If you need any help with this, please us know.
- Make sure that your camera is on throughout the session and place your microphone on mute, unless requested otherwise (such as during group sessions). This ensures there are fewer distracting background noises for all participants.
- The trainer will outline any other general housekeeping rules around virtual etiquette, at the beginning of the session.
- The trainer will explain how introductions will be made either verbally or via the 'chat' facility.
- Please 'join in', active participation is vital to a successful learning experience. **If you are joining on the screen with other staff, please let us know in advance as facilitators will allocate break away rooms per member of staff (so if there are four on one screen we need to let the facilitator know).**
- Use the chat function to pose any questions to the trainer, these will be addressed at various points during the event at the trainer's discretion.
- Please be mindful that if there are children home whilst you are attending online training that some of the content may not be suitable for them to hear so, please make sure you plan for this.
