I, Dale Jones, as a relevant person and enforcement officer designated by Rhondda Cynon Taf County Borough Council, consider that you, as the person responsible, are contravening a requirement imposed by these Regulations and it is necessary and proportionate to give you this Premises Improvement Notice for the purpose of preventing you from continuing to contravene the requirement(s) of the Regulations.

I am of the opinion that you, as the person responsible, for the premises detailed above, which is listed in Regulation 15 and Schedule 7 are failing to comply with the following relevant provision(s):

Regulation 16(1) of The Health Protection (Coronavirus Restrictions) (No.5) (Wales) Regulations 2020 for the following reasons:

Failure to comply with the obligations imposed on you by Regulation 16(1) 'Reasonable measures to minimise risk of exposure to coronavirus'.

Specifically, on 19/01/21 at 12:50 it was observed that:

There was no customer flow control system for the premises implemented, with customers observed moving within 2 metres of each other to access other parts of the premises and at the tills.

The above point(s) fail to ensure that a 2-metre social distance is maintained between persons on the premises, contrary to Regulation 16(1)(a).

And furthermore:

This Premises Improvement Notice is being given to you for the purpose of protecting against the risks to public health arising from coronavirus and the serious and imminent threat to public health posed by the incidence and spread of severe acute respiratory syndrome coronavirus 2 in Wales.

Signage outside and inside the premises informing customers that face coverings were mandatory inside the premises, and for customers to adhere to 2 metre social distancing measures was inadequate, or non-existent.

The manager at the premises admitted that employees sometimes use visors to take breaks from wearing masks.

No screen, or other means, was present at the till to help prevent the potential spread of coronavirus from employee to customer.

The above point(s) fail to ensure that reasonable measures were in place for persons on the premises, contrary to Regulation 16(1)(b).

Failure to comply with The Health Protection (Coronavirus Restrictions) (No.5) (Wales) Regulations 2020, without reasonable excuse, is an offence under Regulation 42 and punishable on summary conviction by a fine.

In order to secure compliance Rhondda Cynon Taf County Borough Council hereby directs you to take the following actions:

Capacity should be determined to allow for adequate 2 metre social distancing by customers on the premises, and if required signage to advise customers of this should be displayed at the entry to the premises.

Placement of signage outside and inside the premises, to ensure that customers understand that wearing of face coverings (unless exempt) and adhering to 2 metre social distancing practices is required at the premises.

Implementation of a controlled entrance and exit system, such as a one-way system or other similar means, at the premises, to allow for customers to maintain adequate 2 metre social distancing measures while on the premises.

Placement of signage at the entrance and exits of the premises, and regular announcements when required, informing customers about adhering to the control system in place to maintain adequate 2 metre social distancing measures while on the premises.

Correct usage of face coverings (unless exempt) by employees to adhere to the mandatory face covering requirements.

implementing a protective screen, or other suitable means, at the till to help prevent the potential spread of coronavirus from employee to customer.

Implementation of all actions identified in your COVID Risk Assessment.

Other measures that achieve equal effect but are not necessarily specified in the guidance may be implemented.

This Premises Improvement Notice is being given to you for the purpose of protecting against the risks to public health arising from coronavirus and the serious and imminent threat to public health posed by the incidence and spread of severe acute respiratory syndrome coronavirus 2 in Wales.
