

SportRCT Case Study

Cardinal Newman

Cardinal Newman applied to our School Fund for equipment to help establish a new after school netball club. The netball club was aimed at all pupils, both boys and girls, and aimed to give them the best experience and encourage them to continue playing regularly. The staff hoped that the club would build friendships, develop skills and increase the confidence of participants on and off the court.

The club ran every Thursday after school and sessions worked on the pupils' understanding of the rules, developing their tactical play and their shooting technique. As well as learning to play, the pupils expressed interest in learning to umpire. All pupils had the opportunity to umpire and this helped them to better understand the game. The teachers organised many games against other schools, as well as inter-school tournaments.
